

CKC-AAA 2010 California Convention

“Rebranding Education”

“We the members of Christ the King College (C.K.C.) Onitsha, Alumni Association in America (CKC-AAA), gathered at our 14th Annual Convention in Los Angeles, CA on **23-25 July 2010**, have chosen “*Rebranding Education*” as our convention theme in keeping with our collective belief in the primacy and imperatives of qualitative education. We hold that it is the moral and constitutional obligations of our elected and appointed representatives and policymakers at all levels of governance, to ensure that every Nigerian child is guaranteed access to affordable and qualitative education. For our part, as Nigerians in the Diaspora, we believe we have the manifest role to assist government and religious bodies that run Nigerian schools, in promoting the value and role of education in the development and advancement of Nigeria. As beneficiaries of qualitative and character education from our alma mater, we remain mindful that society benefits from the skills of those who have acquired the fundamentals of a well-rounded education, which includes the academic, moral and ethical development of the individual. We recommit ourselves to contributing to *Rebranding Education* in Nigeria, by steadfastly supporting the sustenance of an enabling environment at C.K.C. Onitsha that is premised on the promotion of leadership, intellectual, creative, moral, ethical and innovative capabilities of students.”
